Brief Project Description: _____

(Please attach map and other detailed plans to provide a complete description of project)

The Applicant, is hereby granted permission to install and maintain the described facilities within public road right-of-way, as shown on the plans and indicated on the attached map.

INSTALLATION AND MAINTENANCE: Installation and maintenance of said facilities on highway right-of-way shall conform to the following provisions:

- (1) Upon construction, maintenance, relocation or removal of said facilities, any right-of-way scars shall be removed and the disturbed areas restored to original condition, including the re-seeding thereof where necessary. Trenches dug within highway right-of-way shall be backfilled and compacted to a density equal to that of the adjacent undisturbed soil.

TERMS AND CONDITIONS: Installation and maintenance of said facilities on highway right-of-way shall be subject to the following terms and conditions.

- (A) Installation, maintenance, relocation and removal of said facilities on highway right-of-way shall be done in a manner satisfactory to, and subject to supervision by, the County Engineer for the County Highway Department.
- (B) The government sub-division shall not be liable for damage to said facilities resulting from reconstruction or maintenance of the highway. Applicant shall hold the governmental sub-division harmless for injury to persons or damage to property resulting from the location of said facilities on highway right-of-way.
- (C) Applicant shall repair or replace highway structures and any existing facilities located on, over or under highway right-of-way which may be damaged as a result of the installation and maintenance of said facilities on highway right-of-way.
- (D) Applicant shall promptly, remove said facilities from highway right-of-way or shall relocate or adjust said facilities, at its sole cost and expense when requested to do so by the roadway administrator.
- (E) Push, bore or jack all road crossing.
- (F) Parallel occupancy on public road right-of-ways shall have a "prohibition corridor" of thirty (30) feet on either side from the center line of the road; no new parallel cables may be placed in this corridor.
- (G) Crossing of public road right-of-way shall be at least three (3) feet under the ditch elevation.
